

Professional Supervision

At last, Professional Supervision is back on the Uniting College Timetable in 2024!

Two Streams of Graduate study; one for Pastoral Practitioners and one for practicing Spiritual Directors.

Taught online from the University of Divinity in Melbourne in the mornings with practicum, face to face learning in the afternoons.

Rigorous and relational. Delving and deepening. Enlivening and equipping.

Focus on the supervisee's or directee's role within the interrelated worlds of personal calling, cultural context and workplace systems.

A highly recommended course of further study. A degree to be proud of. Immediately useful and applicable to practice.

Four, week-long intensives beginning on February 26 and concluding early October.
